Re: Reservoir Streetscape Masterplan Implementation

Dear Community Member/ Business Owner,

The Reservoir Streetscape Masterplan 2014 identifies the Reservoir Retail Activity Centre's existing network of laneways as the '*forgotten spaces in between buildings*' but that '*fortunately, pedestrians use them as thoroughfares*'. The Masterplan recognises the opportunity to activate these laneways through changes to the public realm to improve safe pedestrian access and to improve the perception of safety by introducing public art that showcases Reservoir's local character.

Rezza + 'Vair – Revitalising Our Laneways

The works to be conducted in the laneways (Right of Way) include:

- Repair of the concrete ramp and adjoining stormwater pits in the Right of Way
- Establishing the laneway adjacent to Direct Chemist Outlet as a clearly signed shared zone
- Installation of bollards to restrict vehicle access through the laneway adjacent to Australia Post to prioritise safer pedestrian circulation
- Public art via a series of temporary posters and video projections on the walls along the laneways. The art installation will explore themes such as local trades, gardeners and local sports

Refer plan on reverse page.

Timeframe for improvement works

Works will begin in the week of 12 November 2018 and will take about 1 week to complete, weather permitting.

Local businesses will still have access to their car parks via Edwardes Street or Ralph Street, however some parts of the Right of Way may be temporarily fenced off as a safety precaution during concreting works.
